

- High quality
- Ideal for large Areas
- 360 degree arm rotation
- Up to 9 metre reach

The Flexi Crane Arm is designed to extract welding fumes and grinding dust at source. It's ideal for use in general engineering, fabrication and automotive/plant use.

The Flexi Arm is attached to the Crane Arm by means of a 360 degree pivot, enabling the extraction hood to be placed anywhere in a radius of up to 9 metres.

Using modern parallelogram technology, the arm is easy to move and yet retains its position once placed. The extractor hood can be angled more than 110 degrees in all directions.

The Flexi Crane Arm can be supplied in many different size combinations, to meet our customers' exact requirements.
